Transmitted herewith is one copy of report No. UWFL-16 entitled  
"Bikini Radiobiological Resurvey of 1948." This report was prepared  
under our contract with the University of Washington at Seattle.

Seven copies of the subject report have been prepared and initial  
distribution has been effected as follows:

Dr. Shields Warren	Copy No. 1
Univ. of Washington	" No. 1
" " "	" No. 1
Dr. Daniel J. Pflaum	" No. 4
Hanford Operations Office	" Nos. 5, 6, and 7

Although this report apparently falls into the Health and Biology  
category, it is felt that the report content may be such as to pre-  
clude issuance under the Standard Distribution List. Since much of  
the material discussed is clearly of interest to the Navy, it is  
recommended that their concurrence be obtained prior to complete  
distribution of this report.

Attached herewith is a suggested special distribution which might be  
increased to cover additional project and military distribution recom-  
mended by the Division of Biology and Medicine and by the Division of  
Military Application.

It is requested that the approved distribution list for this report  
be teletyped to the Hanford Operations Office as soon as possible, in  
order that a more adequate distribution of this important data be ef-  
fected as promptly as possible.
